MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Directorate of Public Works (DPW) Worldwide Training Workshop

On behalf of the Assistant Chief of Staff for Installation Management and the Commander, Headquarters, United States Army Corps of Engineers, I enthusiastically encourage the participation of your MACOM and installation DPW personnel in the DPW Worldwide Training Workshop, December 2-5, 2002, at the Omni Shoreham Hotel in Washington, DC. A Region/MACOM Engineer Conference is also scheduled on December 5-6, 2002.

The theme of this year's workshop is "*Transforming Installation Management To Support Tomorrow's Army.*" This event provides an excellent opportunity to receive and share the latest information and innovative practices in the DPW service profession. Army leaders and advocates for facilities, public works, housing and environmental services will be on hand to discuss initiatives and challenges that installations are facing, and in support of transforming to the Army of the 21<sup>st</sup> Century.

Your MACOM/installation staff should mark these dates on their calendars. Plan ahead to give this training workshop and conference a high priority and facilitate maximum participation. Formal registration will open in early September 2002, via the Internet. When active, the web address for registration will be announced. Additional updates on both the DPW Workshop and Region/MACOM Engineer Conference will be available on the OACSIM web site at <http://www.hqda.army.mil/acsim/>. Please give this information broad distribution among your installations.

The OACSIM POC for this action is Mr. David Purcell, DAIM-FDF-M, DSN 328-7613; Commercial 703-428-7613 or email: [David.Purcell@hqda.army.mil](mailto:David.Purcell@hqda.army.mil).
